

Dear Parents,

I pray this new year finds you doing well. During this school year we have experienced some wonderful firsts in our sports program. Our girl's volleyball team had a winning season and made it to the state tournament. Our girls cross country placed 2<sup>nd</sup> at state, our boys' football team won its first game and we played our first home game on our new Crusader field.

Not to be outdone, the middle school girls' basketball team won their first game and the middle school boys are improving with every game. As basketball season draws to a close and we begin track season, we are looking forward to our students continuing to reach new heights in their athletic abilities.

Several of you have provided some feedback regarding our sports program and I am very grateful for that. As we look to improve our athletic program I am asking that you join me on Thursday, Feb 8, 2007, at 5:45pm for very important meeting. This meeting will provide a forum where all parents can share any concerns, feedback or recommendations you they may have regarding the athletic program. Your input is invaluable and will help us develop a program our students and parents will be proud of.

In closing I thank you for all your support to our athletes and school. Crusader parents are the best.

In Christ,

E. Castillo
